

GARAGE MANAGEMENT SYSTEM

Date	20/6/2025
Team Id	LTVIP2025TMID29678
Project Name	GARAGE MANAGEMENT SYATEM
Maximum Marks	

Chapter -9: Advantages & Disadvantages

Advantages of Garage Management Systems :

- **Improved Efficiency:** Automates tasks like job card creation, invoicing, and inventory tracking, reducing manual errors.
- **Enhanced Customer Service:** Online booking, appointment reminders, and digital quotes improve customer experience and retention.
- **Personnel Productivity:** Tracks mechanic performance, work hours, and tool usage to optimize staff output.
- **Paperless Operations:** Stores data digitally, eliminating paperwork and reducing clutter.
- **Inventory Control:** Real-time updates on parts availability and usage help avoid stockouts or overstocking.
- **Security & Access Control:** Monitors vehicle movement and restricts unauthorized access in parking setups.

Disadvantages of Garage Management Systems :

- **High Initial Cost:** Setup, software licensing, and hardware installation can be expensive.
- **Maintenance Requirements:** Regular updates and system checks are needed to avoid glitches.
- **Technical Glitches:** System breakdowns can disrupt operations, especially if reliant on automation.
- **Learning Curve:** Staff may need training to adapt to new workflows and interfaces.
- **Dependence on Internet & Power:** Most systems require stable connectivity and electricity to function smootor even simulate a test run.
